DETAILED ACTION

Acknowledgements

This office action is in response to Applicant's communication filed on 5/1/2008.

Claims 1-2 have been amended. As such, claims 1-2 are pending in the application.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 1 is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The active steps cited for claim 1 are purely mental steps and don't tie to another statutory class (such as a particular apparatus).

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Macrae, US Patent Application No. 2003/0093310 in view of Bicknell et al., US Patent Application No. 2002/0178044 and further in view of O'Shaughnessy, US Patent No. 5,978,778. Macrae discloses a strategic business method for financial institutions, comprising:

establishing a strategic metric;

setting measurable goals using the established strategic metric;
communicating the goals effectively; and
measuring and reporting progress in reaching the goals ([0025]-[0029]; [0032]-
[0038]; [0063]; [0072]; [0080]).

Macrae fails to specifically disclose pricing strategy. However, Bicknell discloses this feature ([0118]).

Therefore, it would have been obvious to a person having ordinary skills in the art at the time the invention was made to modify the disclosure of Macrae to include the disclosure of Bicknell. The motivation for combining these references would have been to define pricing strategies, competitive strategies that can be analyzed as illustrated by Bicknell.

Both Macrae and Bicknell fail to specifically disclose value strategy. However, O'Shaughnessy discloses this feature (Abstract, col. 5, lines 38-57).

Therefore, it would have been obvious to a person having ordinary skills in the art at the time the invention was made to modify the disclosure of Macrae and Bicknell to include the disclosure of O'Shaughnessy. The motivation for combining these references would have been to use a value strategy or growth strategy or both as described by O'Shaughnessy.

Claim 2 is substantially similar to claim 1 and hence rejected on similar ground.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
